

**HAVE YOU TRIED THE OILS THEY OFFER TO
CONFIRM THEIR QUALITY?**

www.masiacompressors.com

THIS TEST IS THE ONE USED BY MOST EXPERTS TO
ASSESS OXIDATION STABILITY.

Rust: ASTM D665B (Salt Water)
Heavy Fail (Competitor) vs. Pass (MASIA)
Competitor's oil failed the rust test.

PDSC: ASTM D6186-08
18.66 min (Competitor) vs. 43.86 min (MASIA)

This test is the one that most experts use in evaluating oxidation stability.
The higher the number of minutes the better antioxidant protection.

4 Ball Wear: ASTM D4172 B
0.851 mm (Competitor) vs. 0.499 mm (MASIA)
The lower the size of scarring the better.
