

# Series 7

FULL SYNTHETIC COMPRESSOR FLUID

Series 7 compressor lubricants are formulated from several synthetic base stocks (PAO, Ester and Group III) and a synergistic blend of additives designed to provide excellent performance in rotary screw compressors. The Series 7 lubricants offer outstanding performance at a reduced cost versus most PAO and PAO blends.

The new Series 7 formulation provides better viscosity stability over a wide range of temperatures.

**Application:** Rotary Screw, Rotary Vane and Reciprocating Compressors.

**Product life:** 8.000 work hours
